

Extreme Networks® Policy Manager

Extreme Networks Policy Manager—an easy way to manage ACL and CLEAR-Flow switch information.

Multi-platform Software with Workflow Wizards

- Managing ACLs and CLEAR-Flow on ExtremeXOS-enabled switches
- Real-time interaction
- Read, display, edit, merge, and test rules
- ACLs and CLEAR-Flow from a single GUI
- Realtime port and VLAN activation/deactivation
- Realtime rule activation data/statistics

Rule Editor Options

- User created classification
- Action-based sorting—Permit, Deny, QoS, Count and Mirror
- Reference linking to other referenced ACL or CLEAR-Flow statements
- Rule import/export
- Validation and rule checking

Extreme Networks Policy Manager improves overall network security by helping prevent misconfigurations in ACL rules.

Extreme Networks Policy Manager (EPM) is a client software application that provides a graphical user interface to manage policy files on ExtremeXOS™-based switches. EPM simplifies policy management and streamlines the use of the Extreme Networks CLEAR-Flow scripting language for sophisticated switch manipulation.

Rule Navigator Features

- Powerful search capabilities
- Ranking and ordering assignment
- Manual override for ACL precedence algorithm
- Meta-data stored within the policy file
- Tracks changes down to the individual rule elements
- Policy file version and owner
- Audit data such as created/modified dates and time, user data
- Auto-detection external modification
- User editable notes

GUI-Based Rule Creation, Based on Policy Version

- ACL creation
- Match conditions, actions and action modifiers
- CLEAR-Flow
- Match conditions
- True/False action
- Global and policy variables

Technical Specifications

Extreme Networks OS Requirements

- ExtremeXOS 11.4 or later

Operating System Requirements

- Windows XP (Home or Professional)
 - Pentium 4 or AMD Athlon
 - Minimum 512 MB RAM
 - 10GB Storage
- Fedora Core 5
 - Pentium 4 or AMD Athlon
 - Minimum 512 MB RAM
 - 10GB Storage
- Mac OS 10.4x
 - Intel Core Duo
 - Minimum 512 MB RAM
 - 10GB Storage

Client Requirements

- Fedora Core 5
 - X-windows
 - TFTP server
- Windows XP
 - TFTP server
- MacOS 10.4.xe
 - TFTP server
